

.nz DNSSEC Implementation Consultation

From: NZ Council for Civil Liberties

Received: September 13 2010

Dear DNC,

Thank you for your invitation to comment on the proposed DNSSEC implementation in New Zealand.

We have reviewed the material supplied by the DNC and note that the questions raised appear to be technical and procedural. We see nothing in the proposal that should have any civil liberties implications, positive or negative, and therefore have no further comment.

Regards,

Thomas Beagle
NZ Council for Civil Liberties
