Tena koe, Richard

Our organisation received your letters 3 June 2009. In relation to the submission, our organisation are quite happy with the norm, however if it gives our organisation to have the name Rakaipaaka.maori.co.nz for their address during the sunrise period, we would have to be notified so that we can let our whanau/hapu/community/networks know about the address change. This is the only concern that we have.
