Tena koe

I would like to make a submission in support of the change to this moderation policy that has been proposed by the moderator for this second level domain. I have registered the ngatiapa.iwi.nz domain name and work for Te Runanga o Ngati Apa. In making this submission, I particularly concur with the moderators views about the evolving needs of our iwi organisations and the benefits of being able to register some of our commercial and social development entities using the iwi.nz. domain so as to distinguish them from similar initiatives that are being run by private individuals.

Thank you for this opportunity to make a submission.

Grant Huwyler
