Briefly, you're doing fine.

BUT - IT IS ESSENTIAL that you increase your stance against people who want to register/maintain domains that promote right wing hate/violence - INTOLERANCE MUST NOT BE TOLERATED.

The media's role in acts of terrorism was made very clear in the Christchurch massacre. You are a part of media. Be part of the solution.

Equally anti-science/anti-climate emergency domains MUST NOT be allowed to be registered/maintained. These domains (if developed) threaten civilization as a whole. It is incumbent upon you to not aid those who seek to destroy you, your loved ones, and us all.

Again, be part of the solution.
