

File a Response

If you have received notification from the DNC in regards to a complaint about your registration of a .nz domain name, this is where you should lodge your online response.

Before beginning, please note that:

- While it is not necessary, now is a good time to get legal advice if you want it.
- You should read all the sections before starting. Here is a preview.
- The entire form has to be completed in one session and cannot be saved.
- If you make a mistake or wish to change your response, you can use the Back button.
- You will need to print the completed form. However, if you do not now have a printer, an email version of your responses will be sent to you once you're done. This can be printed off later.

As you fill in the forms remember that:

- You should support your arguments with as much evidence as possible.
- When a yellow ? help symbol appears, you can click on it for extra information.

DRS Reference Number

You should have received a DNC Reference Number with the notification inviting your response.
